

# Access Portal LITE

- **Simplicity:** easy to use, quick to install
- **Convenience:** access your site 24 hours a day
- **Scalability:** grows with your business needs

8 doors **1,000** tagholders

## WHO SHOULD USE ACCESS PORTAL LITE?

Small to medium facilities that are wanting to:

- Improve security
- Reduce the risk of lost or duplicated keys
- Restrict access for unauthorised personnel
- Install a low-maintenance, reliable solution

## PRODUCT BENEFITS:

- Accessible via your mobile device
- No computer necessary
- Quickly add or remove personnel
- Basic reporting, such as hours worked
- True plug-and-play hardware

Access Portal Lite is a small but powerful access control solution, with a feature set that punches well above its weight. The system is one of the easiest to install, configure and manage due to the use of plug-and-play hardware and simple in-field configuration.

As a completely embedded system, there is no need for you to install software as everything you need is neatly incorporated into Access Portal Lite. The user interface is easy to use with auto ID, to guide you through quickly adding doors and tagholders to configure your site.

You also have the choice of an LCD or non-LCD version, depending on your specific requirements. The LCD option means you can do everything you need through the touch-screen - from setting up your site, enrolling personnel and accessing reports.

Access Portal Lite also offers a web-based interface, which you can access simply by connecting the solution to your network or router, enabling you

to access it from your computer, or any HTML5 enabled mobile device such as a mobile phone or tablet - 24 hours a day, 7 days a week.

The system offers a number of enterprise features without the associated costs, and has one of the best price to feature ratios in the market. The flexibility it offers you, through an ever-expanding range of compatible products, coupled with its seamless scalability makes the system a sound investment for today and tomorrow.

Access Portal Lite allows you to run reports that turn your system into a valuable business tool. Standard reports include:

- Hours worked for employees
- Areas accessed and by whom, including denied entry
- Tracking of administration events, such as adding or deleting tags

Providing you with a valuable audit trail of all the activities on your premises.
